

The AG Leader

"GETSCO delivers quality and service."

DuPont's LeadOff — Envive — Canopy

DuPont has a new product for 2012. **LeadOff** was launched just recently and has really been popular with growers in states south of North Carolina. If you are looking for an inexpensive product that provides excellent burn-down when used with Glyphosate and 2-4D, then LeadOff is your answer. We also recommend that you use GETSCO's **Heat** organosilicone surfactant in the tank mix. LeadOff, unlike Valor, provides longer residual activity and does not require spray tank cleanout. LeadOff has a pre-plant interval of 45 days for peanuts and 30 days for both cotton

and soybeans. There is no pre-plant interval required for corn.

GETSCO is a proud distributor of quality DuPont herbicides. Our expert staff can help you choose the right chemicals for your weed control needs.

Envive is one of the best pre-emergent's on the market. It contains 2 modes of action, compared to Valor's singular mode. Additionally, Envive provides better control of Glyphosate resistant Ragweed, an increasing problem among growers today, as compared

to other similar products.

DuPont has lowered the price of **Canopy!** Canopy, a powerful herbicide, contains Sencor (a trizine which is the same class of chemical/mode of action as Atrazine). It has a powerful burn-down and excellent residual control of weeds, especially Pigweed.

It is always a good idea to rotate which herbicide you use. Rotation is the best way to combat further growth of chemical resistant strands of weeds.

**ROTATE...
SO YOUR WEEDS
DON'T CULTIVATE!**

YOUR 2012 Seed Supplier:

GETSCO sells most varieties of cottonseed at very competitive prices. Check with your GETSCO salesman before ordering cottonseed! Also, there is still time to

place orders and receive early-order discounts for Beck's Corn & Soybean seed for 2012. (Other brands are available as well.) Let GETSCO be your seed supplier!

Getting to Know Us

GETSCO is continuing to grow by leaps and bounds in 2012! In addition to better products, access to more quality manufacturers, and more locations to serve you, we are continuing to add qualified professionals to our staff.

Our newest sales team member in the Trenton, NC location is Stephen Foy. Stephen has been in the agriculture industry all of his life. He comes to us with not only a background in equipment sales, but as a cotton and grain grower himself. Stephen says his favorite thing about farming is, "watching something so small grow into it's finished product."

We are excited to welcome Stephen to our team. We hope you will be too!

Call us — we are always available to serve YOU!!!

GETSCO... Helping the next Generation of Growers

We at GETSCO believe that the strength of the North Carolina agriculture industry lies not only with current growers, but also with the prospect of future growers. We strive to be involved not only with the growers that we serve throughout middle and eastern North Carolina, but with the communities that support them as well. It is our honor to help cultivate the growth and continued interest in agriculture's future. With this philosophy in mind, we are proud to sponsor the Wilson County Young Farmers Association. This year, GETSCO salesman, Jeff Batten was lucky enough to tag along on WCYFA's 3 day trip to Moline, Illinois.

Vann and Derek Lancaster tour Premier Grain Farms in Walker, Iowa.

While there, the 37 farmers and agriculture professionals toured John Deere World Headquarters; the John Deere Harvester Assembly plant; the John Deere tractor assembly plant in Waterloo, Iowa; and Premier Grain Farms in Walker, Iowa. As an added treat, the group made a stop by Antique Archeology, home of the History Channel TV show 'American Pickers'!

The Wilson County Young Farmer's Association poses in front of a John Deere Combine at the John Deere Harvester Assembly Plant in Moline, IL.

GETSCO was honored to be a part of such a fun and interesting trip with the heart of Wilson's next generation of growers. We look forward to further participation in community events throughout 2012.

****If you or someone you know would like GETSCO to sponsor an agriculture related community event, please contact your local sales office today.****
